SKILLS

- Languages: C++, JavaScript, Java, Python
- Frontend technologies: HTML and CSS, Bootstrap, ReactJS
- Backend technologies: NodeJS, ExpressJS, Laravel
- Database: MySQL, MongoDB
- Version Control and Tools: Git, GitHub
- Power Skills: Versatile Learner, Leadership Capability, Effective Communication

PROJECTS

AI Image Enhancer | React, Tailwind CSS, AI API

March 2025

- Created a web app that enhances image quality using AI.
- Integrated AI API for real-time processing and comparison.
- Designed responsive UI with dark mode and animated elements.

Interior Design Website - React, Tailwind CSS, API Integration, Figma

December 2024

- Developed a responsive and visually appealing website showcasing the work of architects and interior designers.
- Integrated API to dynamically fetch and display project portfolios and client testimonials.
- Used Figma to design and implement a user-friendly UI/UX.
- Included features such as contact forms, project details, and home decoration ideas to enhance user engagement.

Movie Ticket Booking System | C++, Data Structures and Algorithms

September 2024

- Built a console-based movie ticket booking system using C++ with an emphasis on DSA concepts.
- Utilized data structures such as arrays, linked lists, and queues to manage bookings and seat allocations.
- Implemented sorting algorithms to display showtimes and ticket prices in an organized manner.
- Added functionality for user registration, ticket cancellation, and generating booking summaries.

CERTIFICATES & CERTIFICATIONS

- Cloud Computing
By NPTEL - [Certificate Link](#)

November 2024

- Server side JavaScript with Node.js
By NIIT — [Certificate Link](#)

April 2024

- Generative AI with Large Language Models
By Deaplearning.ai - [Certificate Link](#)

April 2024

ACHIEVEMENTS

- Demonstrated strong problem-solving and algorithmic abilities by solving over 150 problems on coding platforms like code360 and LeetCode.
- Earned certifications in Data Structures and Algorithms, MERN Stack, and Generative A.I. and utilized expertise to build an optimized full-stack application.

EDUCATION

- Lovely Professional University, Phagwara
Bachelor of Technology in Computer Science Engineering, CGPA-7.34

Since Aug. 2022
Phagwara, Punjab

- Dayanand Model Sr. Sec. School
Intermediate, 90.6%

March 2020 – April 2022
Jalandhar, Punjab

- Dayanand Model School
Matriculation, 96%

April 2019 – May 2020
Kartarpur, Punjab

Extracurricular Activities

- Taught underprivileged students for **20 days** at **Maharishi Dayanand Educational Society** as part of a Community Development Project (CDP) during summer vacations, earning a Certificate of Appreciation from the institute.

June 2024
